And now a few words from me:

Hi there! I'm Alice, an easy-going senior with a pep in my step. I love walks, snacks and lounging in the sun. I don't like having my paws touched and not wearing a coat or sweater when out for walks, even in the colder months. I'm untested with kids, but I would likely do well in a home with older, respectful children. Once I get to know you, your lap will be my favourite spot. I prefer human connection and being petted over playing with toys. I'm looking for a home where I can live out my golden years, could that be with you?

And now a few words from my foster family:

Alice may be small, but she definitely has a big personality. She is a vocal little lady who likes to make herself known. She has had her vocal cords removed, so her barks sound similar to chicken clucks. Alice loves being where the action is. If you're doing chores around the house, she will happily follow along as your tiny supervisor. When it is time to relax, she is just as happy curling up beside you on the couch for some quality snuggle time. Alice is very enthusiastic about food and will try to convince you to share everything. Her one tooth does not hold her back but, she is scheduled for a dental consult shortly. She loves going for walks and getting out to explore, but can be a little feisty when it comes to grooming so patience is key. Alice is a typical senior dog; she will need Omega 3 and Glucosamine supplements for arthritis. If you are looking for a loyal companion who wants to be part of everything you do, Alice might just be your gal!
