Housetraining:	Yes				
Crate Trained:	Yes				
Suitable for an Apartment:	No, barks easily				
Origin:	Owner surrender via a shelter		Adoption Fee:	\$350	

And now a few words from me:

Well, hello. My name is Harvey, which suits an older fellow like me. I may be in my senior years, but don't let my age fool you because I still love to go for walks and play with the kids. Folks say that I'm a sweet, curious, happy fellow. Three more things about me: I like to explore, I enjoy being brushed, and I don't like the water. Mostly I like taking a nice, long, restful nap... that feels great. But even though I may be resting, I try to keep an eye out for my foster parents, just so that I know what they're up to. I'm adjusting to my foster sister, and while I'm learning to eat beside her I realize that I can't walk away to enjoy my food at a later time because she will eat it the minute I turn my back! That doesn't seem very hospitable to me, but as I said, I'm adjusting. I'm also trying to engage her in some play time, but she doesn't want to have anything to do with me. Maybe you'd enjoy my company. Can we meet?

And now a few words from my foster family:

Harvey is a sweetheart! Despite his age, he is very agile and energetic. If you don't play with him, he jumps and grabs your clothes to encourage some play time with you. Our 8-year-old granddaughter had a great time playing with him and he had fun with her too! Despite his best efforts to engage the resident dog in play, she wants nothing to do with him. Harvey is very adaptable to new surroundings, although he likes to remain close to his people. He can be very vocal, almost as though he's trying to communicate with us. Harvey travels well, which is great. He is a bit overweight, so we're working on getting him down to his ideal weight. He will be having a dental while in the care of CDRO, which should make him more comfortable and help with his bad breath. Harvey is sweet fellow with lots of love and playfulness to share with his new family. **Medical note:** Harvey's vision is still good, but he is likely starting to develop cataracts. **Foster in:** Ottawa
