Suitable for an Apartment:	Not suitable for an apartment or attached housing as she is a very loud barker and responds to noises of any kind			
Origin:	Owner Surrender	Adoption Fee:	\$750.00	

And now a few words from me:

I'm a busy, curious young girl with a huge heart and endless energy! I really enjoy going for walks and am learning how that is done on a leash. I love being outside and then I enjoy a good snuggle. I'm good at playing with other dogs but can get carried away, which can be annoying at times (I have no self-preservation)! I have tons of energy to burn. My legs may be short, but they have springs in them, and I can get into my foster mom's raised flower beds with no issues! I come when called by name 90% of the time – imagine that! I love humans, and in my forever home I'd love a fenced backyard to call my own. It might also be nice to live with another dog to help me run off my boundless energy.

And now a few words from my foster family:

Stevia has been a great little girl to foster. She likes to know what's going on and takes part in the play and antics of the dogs with whom she is currently living; they will tell her to settle down when she gets going. Her housetraining is coming along well. Although she doesn't know to ask to go out, she does well when kept on a schedule. Stevia is currently ex-pen and crate trained, and continuing to use these will be a must in her forever home as she is inquisitive and will get on tables and such when you are not watching. She has not been destructive; she loves a good bone to chew on. She sleeps well in her crate at night. Stevia loves going for walks and although leash training is improving, she still pulls.

If you think that you might be the right fit for Stevia, please contact us. **MANDATORY MEET AND GREET IN GRAFTON, ONT. All humans and existing dogs must be present.**
